

REDXRAY®

REDXRAY® + MS 365® = TOTAL PROTECTION FROM CYBER THREATS

TOTAL PROTECTION

Microsoft® 365 Defender protects the network from the inside. RedXray® protects the network from the outside and does not touch the network.

DISCOVER THREATS

RedXray threat data can be loaded into multiple security systems, Microsoft, Cisco, Fortinet, etc., to offer a more comprehensive approach to cybersecurity.

NOTIFICATION

RedXray notifies of cyber threats before they breach the network.

100% PROTECTION

With both Microsoft 365 Defender and RedXray you can have 100% protection against cyber threats

REDXRAY provides notification services & REDXRAY-PLUS includes a dashboard for additional analysis.
